

GLOBAL
ELEVATORS

We were incorporated as a Private Limited Company on 14th March 2000 with the main object of installation, repair & maintenance of elevators. Our registered office is situated at Global House, Plot no D 222/35, Near Mahanagar Gas, Shirvane MIDC, Nerul, Navi Mumbai 400706. We have undertaken various types of elevator installations. Our unique craftsmanship and reliability is the result of 40 years of experience. We are a full-fledged elevator company having our own set up for designing creating and maintaining all types of elevators.

We have installed more than 3000 elevators and maintaining more than 1500 elevators. We have a 10,000 sq ft place solely used for the after sale services purpose and a well-equipped communication facility to provide one of the most efficient elevator maintenance services in Navi Mumbai.

Turnkey Elevator

We have expertise in providing new elevator to your old building. We have a team of architects and contractors to provide you with end to end solutions. You will get a revised OC with a license to operate the elevator. With 40 years of experience, you can be sure that your job will be done on time. Adding an elevator will increase your home value by up to 20% and yes, the smile on your face while riding towards the top floor is priceless.

Some of the Turnkey projects we have executed:

Sarini CHS, Vashi

Citadel CHS, Vashi

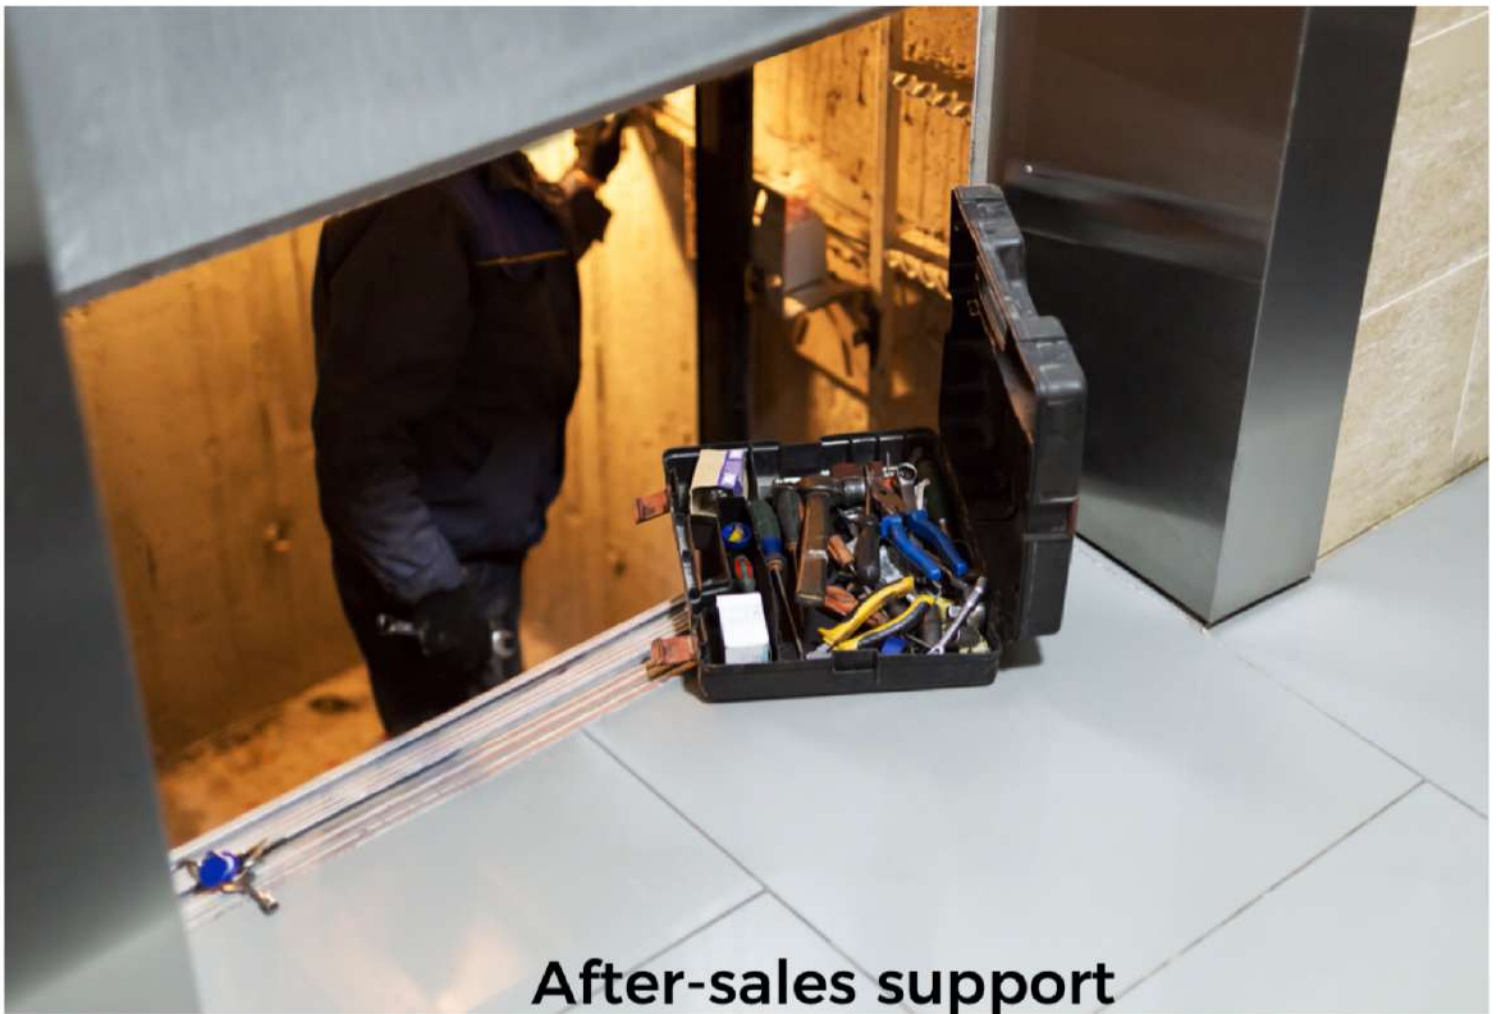

Tata Employees CHS, Vashi

Vyapti CHS, Koperkhairane

Sagarika CHS, Vashi

Vastu Vaibhav CHS, Kalamboli

Amit Sagar CHS, Vashi

After-sales support

Global Elevators holds more than two decades of experience in Maintenance services with more than 1500 elevators under maintenance.

You get an following choices while picking your AMC service:

1. Fully comprehensive
2. Semi comprehensive
3. Non-comprehensive

Key focus areas of our AMC service?

- At your service for 365 days for breakdowns.
- Quality on-the-job-trained staff with hands-on experience related to all kinds of maintenance activities.
- Digital recording of your services to keep a check on your maintenance and breakdowns.
- An advanced ERP system integration with an SMS tracking of your servicing. This way all you need is your 'ticket number' to have your queries answered by our team.
- Assured response time within 03 hours.
- Genuine replacement parts. Duplicates do no good.
- Safety check visits. If you are on our regular maintenance service, it is our responsibility to not let you do follow ups with us.
- Technicians with 10+ years' experience
- 10,000 sq ft dedicated space for after-sales and training

Modernisation

It is our promise to be your one-stop solution for finer performance and better safety. Our Modernization service provides the overhauling of old parts of the lift in order to upgrade your experience suitable for the new technology. We take quality and safety very personally.

Are your elevators breakdowns too often?

Does your elevator look worn out and out-of-date?

Do you feel unsafe during your elevator ride experience?

Has your elevator turned noisy and unpleasant?

Do you often enter your elevator and find it embarrassing to bring in your visitors inside?

Then connect with our experts to know more about our Modernisation services.

Aesthetic modernisation

Everyone loves to have a new look after some time. Well, you can transform the looks of your old elevator by changing the cabin, landing and car operating panels. You can have new wall-mounted panels which will enhance the looks of your lobby. You can select from a wide range of cabin panel shades and design to make your elevator stands out from the rest.

Component upgrade

You can also enhance your riding experience and add safety by changing some components. You can enjoy the smooth ride with the introduction of VVVF Drive. It will help elders to enter and exit the elevator easily as it stops perfectly in the floor level. You can ensure the elevator won't take more than rated load by installing an overload device. It will restrict the use of your elevator within the rated limits.

Now you don't have to worry about 3 phase supply while riding an elevator. You can have ARD (Auto Rescue Device) installed in the elevator which will bring the elevator to the nearest floor in case of power failure. No more strangled feeling now.

Full replacement

Everything has an expiry date then why not your elevator. Go for full replacement and make your elevator safer, more reliable, smoother and aesthetically pleasing. We will provide a detailed report of which components we can retain and which needs to change to make the transition smooth. We will take care of all the permissions needed to replace your elevator. 100% of all our modernisation works have finished in time.

We plan a site visit to understand your requirement and come up with our systematic plan in order to save you some "extra" time and avoid hassle throughout the process. It is better to have a set approach right from inspection to remittance and service than wasting your valuable time in going back and forth about it.
