

**GLOBAL**  
ELEVATORS

## **GLOBAL HOUSE**

We were incorporated as a Private Limited Company on 14th March 2000 with the main object of installation, repair & maintenance of elevators. Our registered office is situated at Global House, Plot no D 222/35, Near Mahanagar Gas, Shirvane MIDC, Nerul, Navi Mumbai 400706. We have undertaken various types of elevator installations. Our unique craftsmanship and reliability is the result of 40 years of experience. We are a full-fledged elevator company having our own set up for designing creating and maintaining all types of elevators.

We have installed more than 3000 elevators and maintaining more than 1500 elevators. We have a 10,000 sq ft place solely used for the after sale services purpose and a well-equipped communication facility to provide one of the most efficient elevator maintenance services in Navi Mumbai.

A passenger elevator is the heart of the building which needs to be run continuously and the most important is that it should be problem-free. With quality parts and the best after-sales service we assure that not only your project will complete on time but you will also get the much needed assured 365 days of service.

#### Passenger Elevator

Type	Speed (mps)	Passenger	Max Stops	Max Travel (mtr)
Hydraulic	0.32	26	5	15
Geared System	1.5	26	18	55
Gearless system	1.75	26	25	80

## Car Elevator

Car elevators have become an essential part of the building. It helps to move cars on the parking floors easily. Providing an efficient and problem-free Car elevator will ensure that members reach their destination hassle-free. We provide Car elevator with horizontal as well as vertical opening doors.

### Car Elevator

Type	Speed (mps)	Capacity	Max Stops	Max Travel (mtr)
Hydraulic	0.32	2500	5	12
Geared System	0.5	2500	8	21
Gearless system	0.5	2500	12	36

## Hospital Elevator

It is a fact that hospital elevators are used 65% times more frequently than the ones installed in the offices or residential spaces. Most elevators are ordinarily designed considering its use for a number of times in a day. We understand the nature of health-care business and that a hospital requires more durable and reliable elevators. This depends on the quality of materials used to manufacture the elevators and how good is the maintenance service offered for it? We take utmost care to not negotiate on these standards. Furthermore, hospitals cannot afford a delay in response time for breakdowns. We take this headache away from you to let you focus on the only ache you're supposed to worry about - your patient's!

### Hospital Elevator

Type	Speed (mps)	Passenger	Max Stops	Max Travel (mtr)
Hydraulic	0.32	22	5	15
Gearless System	1.5	22	18	55
Gearless system	1.75	22	25	80

## Goods Elevator

When it comes to Factories, a lot of concerns need addressing considering the robustness and quality of the elevator. The elevator used in factories demands high-reliability in its operations and optimum performance. We use high-quality and genuine manufacturing parts that cater to your working conditions, safety, and ease to lift the heavy load as well as light materials. Low downtime and maintenance are our goals for you. Our concern is taking away the “load” of your elevator solutions while you get to focus on the real load that goes into our elevators.

### Goods Elevator

Type	Speed (mps)	Capacity	Max Stops	Max Travel (mtr)
Hydraulic	0.32	3000	5	12
Geared System	1.5	3000	18	21
Gearless system	0.5	3000	12	36
